[SEO - 1 Day](#)

Find out how to make your site search engine friendly and boost your search engine traffic.

Social Media - 1 day

Are you struggling to engage with customers and influencers on social media? Learn how to develop an ongoing social strategy for your business.

Content Marketing - 1 day

Content is the current 'buzzword' in digital marketing and for good reason too. Smart businesses are investing more in content instead of or alongside traditional advertising and marketing.

Google Analytics - 1 day

When running online campaigns it's essential to monitor the outcomes and adjust what you're doing to improve your efforts and keep moving forward.

Advanced Google Analytics - 1 day

Once you've got to grips with the basics of Google Analytics it's important to move on to more advanced features that will allow you to really unlock your site's potential.

Email Marketing - 1 day

It may be one of the oldest digital marketing tools, but email marketing continues to have one of the highest ROIs and should never be forgotten. Especially in B2B marketing it's often your best way to reach customers and leads.

HTML Email - 1 day

Make your email marketing really stand out with custom HTML email templates that can be reused for multiple campaigns.

WordPress - 1 day

Ideal for anyone who wants or needs to use WordPress on a daily basis, this is a crash course in WordPress' features and dashboard.

WordPress Custom Themes - 1 day

Learn how to use HTML & CSS to create page templates and style your themes to match your branding.

It's not enough to only know about one element of digital marketing anymore. The best

marketers are all-rounders, or specialists who understand how their area of expertise fits within a wider marketing strategy.
