What is IOSH Introduction to Risk Assessment Training?

Learn how to effectively identify, assess and document risks with our 1-day **Introduction to Risk Assessment training course**, accredited by IOSH (Institution of Occupational Safety and Health).

At the end of the day, not only will you have gained the skills the carry out comprehensive risk assessments but you will also have an industry recognised Risk Assessment certificate from IOSH.

Make sure your business is complying with the Management of Health & Safety at Work Act by training yourself or your staff to make a suitable and sufficient assessment of the risks to workers and the public.

Download our free IOSH eBook for tips on completing an IOSH project.

During our 1-day Risk Assessment course, you will learn to identify and quantify hazards associated with the working environment and you will gain the ability to complete a well-documented risk assessment.

We can tailor our IOSH Risk Assessment training to your requirements, in-company or at our premises in Brighton. Please call +44 (0)1273 622272 for more information.

Silicon Beach Training runs IOSH Risk Management Training in association with KRW Risk Management Solutions Ltd.
