Find out how to make a website like ours! Learn the essentials of designing websites for all devices with this interactive **Responsive Web Design Training Course**.

You'll be taught by trainers who are experienced responsive web designers as well as exceptional teachers. They will give you a complete overview of responsive web design best practice - with a practical focus so you can start putting your new knowledge into action right away.

Download our free Mobile Development eBook to give you an insight into how Responsive can be used to provide a rich experience for the user.

It is important that you have an existing working knowledge of HTML and CSS to get the most from this intensive responsive web design training course.

Our public courses take place in **Brighton, Sussex** and we can also provide private and in-company Responsive Web Design training courses. If you'd like more information - or to book - just call +44 (0)1273 622272.

This training course is part of our unique **Mobile Web Design Week** - a comprehensive 5-day package where you'll learn the **HTML5, CSS3** and **JavaScript** needed to build websites for all devices.
