What is the PRINCE2® Agile Practitioner Course?

This training course combines the flexible and responsive methods of Agile Project Management with the framework of PRINCE2®. This course functions as an additional module to the PRINCE2® Foundation training course. The course lasts a total of 2 days, in which time you will be provided with information on how to apply Agile's techniques to the PRINCE2® method.

PRINCE2® Agile Practitioner Course Objectives

- To gain an understanding of the basic concepts of common Agile ways of working.
- Enhance your knowledge and purpose of the context for combining PRINCE2® and the Agile way of working.
- To be able to apply and evaluate the focus areas to a project in an Agile context.
- To be able to fix and flex the six aspects of a project in an Agile context.
- To be able to manage and tailor the PRINCE2® principles, PRINCE2® themes, PRINCE2® processes and management products to a project in an Agile context without having to compromise the PRINCE2® framework entirely.
- To be fully prepared to sit the PRINCE2® Agile examination.

Who is the PRINCE2® Agile Practitioner course for?

This certification is recommended for professionals working with project-based environments. This includes individuals who are involved with integrating project management with the delivery of products.

Why should I take the PRINCE2® Agile Practitioner course?

By completing this certification you will be able to enhance your Project management expertise and subsequently improve what you can achieve. There is an earning potential of between £40-80k with the PRINCE2® Agile Practitioner qualification.

Pre-Course Reading

Pre-course reading involves studying the first three chapters of the PRINCE2® Agile handbook. Completing this work will aid your training and improve your chances of success in the exam.

PRINCE2® Agile Practitioner Exam Information

- Objective testing (multiple choice)
- 50 questions each worth one mark each
- 60% required to pass
