Introduction to PRINCE2® Foundation Training

This PRINCE2® Foundation course will ensure that you gain an understanding of the PRINCE2® principles, PRINCE2® terminology.The PRINCE2® Foundation qualification is the first part of the full PRINCE2® qualification which is required in order to become a PRINCE2® Practitioner.

What is PRINCE2®?

PRINCE2®, an acronym for Projects IN Controlled Environments, is a project management methodology that promotes productivity and maximal efficiency - through following an established and proven process-driven framework. For more information check out our blog PRINCE2® vs APMP - What are the differences?

PRINCE2®Foundation Syllabus

The PRINCE2® Foundation training course has been designed to measure the delegate and whether or not they have sufficient knowledge and understanding of the PRINCE2® method.

The PRINCE2® Foundation Syllabus includes the following topics:

PRINCE2®Principles

PRINCE2® operates with a collective set of principles that can be applied to every project. These seven principles provide the framework of the best practice upon which PRINCE2® has been created on.

- Continued business justification
- Learn from Experience
- Defined Roles and Responsibilities
- Manage by stages
- Manage by exception
- Focus on Products
- Tailor to suit the project environment

PRINCE2®Themes

The seven PRINCE2® themes are features of the project that must be repeatedly addressed and related together in order for the project to be delivered efficiently and successfully.

- Business Case
- Organisation
- Quality
- Plans
- Risk

The seven PRINCE2® processes are defined by the activities that are required to direct, manage and deliver the project successfully. The following processes run from pre-project, through the beginning of the project and delivery, up to and including project closure.

- Starting a Project
- Directing a Project
- Initiating a Project
- Controlling a Stage
- Managing Product Delivery
- Managing a Stage Boundary
- Closing a Project
