This exam session allows candidates that have prepared either externally or individually for the PRINCE2® Practitioner programme to sit the exam at one of our convenient locations, in order to achieve the internationally renowned and accredited PRINCE2® Certification.

PRINCE2® is an acronym for Projects In Controlled Environments and is beneficial for individuals looking to develop their project management skills and techniques. An Internationally renowned and recognised qualification, PRINCE2® Certification allows individuals to excel in a myriad of ways, including project methodology planning, identifying key strengths to maximise productivity and success, and business justification - all of which are crucial when transforming the knowledge you already possess, into actual business projects. As the highest form of all PRINCE2® Qualifications, the PRINCE2® Certification is utilised by the private sector, in addition to the UK Government, in an attempt to ameliorate project management techniques, allowing you to make the correct decisions at the correct stage of a project.

PRINCE2® Certification allows businesses to create and follow a set and consistent approach to project management, in addition to enabling regular financial reviews to ascertain productivity of project instigations. PRINCE2® Certification gives you the knowledge and the skills to thrive, and enhances the business strategy to guarantee that the competencies of staff are fully utilised across the project team. Prominent projects are more likely to succeed if the project manager is a PRINCE2® certified Project Manager due to understanding delegation and communication strategies that enable teams to be cohesive with a unified ambition. Hence, PRINCE2® Certification is beneficial to individuals looking to develop their CV business competencies and can be pivotal for businesses looking to transform project productivity. PRINCE2® as a concept is based upon generic and proven principles and can therefore be tailored to your business regardless of the business type - ranging form IT, mergers, and construction. If you're looking to run a successful project, PRINCE2® Certification should be your first planning step, due to the ability to foresee potential problems within the project and consequently pre-plan to overcome such inhibitors, whilst adhering to the set business justification.
