

What is Google Analytics Training?

With this Google Analytics training course you'll be able to do more than just look at data on a screen in Google Analytics.

This [SEO training course](#) will show you how to analyse what it means so you know which of your marketing initiatives lead to traffic and conversions. This means you can confidently concentrate your time and resources on what has the best ROI.

Because we keep our class sizes small, your trainer will be able to address any questions you have as the Google Analytics course progresses.

If you are already a confident Google Analytics user, you may prefer our [Advanced Google Analytics training](#). You can also take this course with SEO, Social Media and Google AdWords with our Pick 'n' Mix deal.

Our scheduled courses take place in [Brighton, UK](#) but we're happy to provide private and in-company Google Analytics courses if you live elsewhere. If you'd like to know more - or want to book a course - just call [+44 \(0\)1273 622272](#).

Prerequisites

This is a beginners training course so no previous experience using Google Analytics is required but you should have Admin access to an active Google Analytics account. Please contact us before the course if this is not possible and we will set up a test account for you.
